

Aarin Grayson

UX/UI designer | Front-end developer

SUMMARY

Creative, empathetic UX/UI designer and front-end web developer. Proven track record of designing visually stunning, easy-to-use digital experiences. Looking to bring my skills to a company that is designing impactful digital products.

WORK EXPERIENCE

UX/UI Designer at CreateApe, Remote

Feb 2022 — Present

- Collaborated with a team of designers and developers to create modern, user-friendly, and responsive websites and applications using UX/UI best practices.
- Built and maintained design systems to increase efficiency.
- Applied agile methodologies like SCRUM for project management.

Recent Projects:

SuperCare Health — Designed a robust and comprehensive self-service center complete with product guides, FAQs, articles, and other resources with the goal of reducing inbound customer calls.

Manic Panic Redesign — Improved the information architecture of Manic Panic's website so that users can find products more quickly and upgraded the branding and user interface design of the website.

Other Projects: Warmuth Law, Andros, Independent Women's Network, CSA Perspective, Alsana, Beauty Books, CuraPatient, Oshyn, Right on Bracket, LongeviQuest, The Super Dentists, Howard Health Academy.

UX/UI Engineer at Volt Agency | Remote

January 2021 — Dec 2021

Took UX/UI design projects through the full project development lifecycle - from research all the way through development using HTML, CSS, and JavaScript for small to medium-sized businesses. Also, provided graphic design and social media strategy.

Projects: Send a Friend, Muddy Bites, Dime Beauty, Patriot Plots.
